前言

這套練習是北京中央音樂學院小號教學中關於嘴唇靈敏、柔軟訓練的教材之一。我希望本教材的練習內容能有助于學生們發展嘴唇的靈敏、輕巧、富有彈性，從而提高學生們的吹奏能力。

在編寫這套教材時，我力圖囊括那些我認爲對這一方面技巧訓練有重要價值的材料，按照教學規律，由淺入深，循序漸進，使本教材內容前後密切相接，具有序列性。

這套練習不論對初學者還是對具有較高吹奏能力的演奏者都很有實用價值，在我自己的練習過程中深感受益匪淺，通過教學實踐也證明對學生們也都是很有幫助的。

吹奏者依據自己嘴唇的不同狀況和演奏的需要可選擇本教材中的部分練習做為每日基本練習內容之一，有計劃的堅持練習。吹奏時嘴唇要鬆弛、自然，喉嚨、舌根，切勿緊張，氣流要通暢、飽滿、均勻穩定，努力去尋求你想像中的美好音質。然而當你嘴唇乏力或疲勞不適的時候，就應當選擇一些簡單的練習吹奏，而不要吹奏那些力所不及的高音練習，以免嘴唇受傷，或養成不良奏法。如果你按照正確的吹奏方法，根據自己的程度持久地循序漸進地吹奏一些本教材中適合你自己狀況的練習做為每日基本練習內容之一。我相信對你的吹奏是會產生良好的積極作用的，正像我已然體會到的一樣。

Preface

This book was written for the trumpet students of the Central Conservatory of Music in Beijing, China. I hope the contents of this book can help students in developing their lip flexibility and their ability to play the trumpet.

I have tried hard to include all aspects of slurring technique and to trace the progression from the beginner to the advanced level. Therefore, the contents of this book are very helpful for the elementary as well as the advanced players. From my own practice and teaching experience I have seen this as useful to all my students.

During practice sessions your embouchure, throat and tongue should be naturally relaxed and flexible. The air should be fluent and steady (consistent). Always try to produce your most beautiful tone.

If you feel your embouchure is tiring or is uncomfortable, you should choose an easier section to practice. Do not attempt to play in too high a register. This will avoid hurting your embouchure or learning to play incorrectly.

The best way to practice these exercises is to concentrate only on the appropriate sections according to your level of development. Players according to their different embouchure conditions and requirements can choose appropriate portions of this book to make their own daily practice routine.

I believe these exercises can create a positive influence in your playing. I have experienced such benefit from them in my own playing for many years.

Professor Bai Lin, Professor of Trumpet, Central Conservatory of Music, Beijing, China, 1996

Professor Bai Lin, Chairman of the Winds and Strings Department and Professor of Trumpet at the Central Conservatory of Music in Beijing invited me to present a series of master classes and lecture recitals in Beijing and Shanghai in June of 1995. During the month I spent working with trumpet students from the conservatory and the middle school, I was repeatedly impressed by the high level of performance these students had achieved due to their own dedication and to uniformly excellent instruction. The person responsible for this excellence is Professor Bai Lin who brings tremendous energy and dedication to all aspects of his work at the Conservatory.

Bai Lin’s effective teaching achieves a balance between working on literature and perfecting the fundamentals of playing the instrument. Central to this work on fundamentals are the lip flexibility exercises presented in this book.

Since my return from China, I have worked using these exercises in my own private practice and with all of my students. They are now part of our daily routines and have become a valuable addition to Schissberg, Irons and Clarke for the development of tone and flexibility.

My thanks to my good friend and student, Dai Zhong Hui, for helping to arrange all aspects of my trip to China and acting as interpreter and guide, to Rob Roy McGregor and Balquhidder Music for taking on the task of publication and, most importantly, to my respected colleague and gracious host Professor Bai Lin for conceiving these unique exercises. I recommend them highly and assure you they will be a valuable addition to your personal and teaching library.
